PROFESSIONAL PROFILE

Engineering Manager with 10+ years of experience leading cross-functional teams and delivering enterprise-scale systems (ERP, CRM, Data Platforms) serving millions of users. Proven track record in building high-performing teams, driving technical excellence, and delivering business impact through data-driven decision making. Expert in scaling organizations and establishing engineering best practices.

LEADERSHIP & MANAGEMENT SKILLS

Team Leadership: Built and managed cross-functional teams of 50+ members (Engineers, Architects, QA, Business Analysts)

Technical Strategy: Defined technical roadmaps and architecture standards for enterprise-scale systems

Stakeholder Management: Aligned technical solutions with business objectives for C-level executives and product stakeholders

Hiring & Development: Recruited, mentored, and developed engineers and architects in system design and data engineering

Project Delivery: Led multiple high-impact projects from conception to production with on-time, on-budget delivery

Process Improvement: Established engineering best practices reducing production incidents by 70%

TECHNICAL EXPERTISE

Architecture: Microservices, Event-Driven Architecture, Data Lakehouse, System Design (C4 Model)

Data Engineering: Hadoop, Spark, Hudi, Presto, ClickHouse, ETL Pipelines

Technology Stack: C#/.NET Core, Python, SQL Server, PostgreSQL, MySQL, MongoDB, Kafka, Kubernetes, Docker

PROFESSIONAL EXPERIENCE

Engineering Manager (Data Team) | MISA JSC

Jun 2023 - Present

Outline:

Managed a team of 8+ engineers responsible for data infrastructure and analytics driving strategic decisions company-wide.

Key Responsibilities:

- Built and led data engineering team from ground up, establishing roles, processes, and technical standards
- Defined team roadmap and prioritized projects aligned with business objectives and executive needs
- Managed team performance, conducted 1-on-1s, performance reviews, and career development planning
- Collaborated with product, engineering, and business teams to deliver data solutions
- Designed and implemented Data Lakehouse architecture (Hadoop, Hudi, Presto) managing 20TB+ of data
- Delivered real-time and periodic reports to executive board covering subscriber trends, product engagement, and churn metrics
- Deployed AI/ML predictive models for churn risk and customer potential ranking for 2M+ enterprise clients
- Administered and monitored performance and availability of all company databases

Technology: Python, C#/.NET Core, Hadoop, Spark, Hudi, Presto, ClickHouse, Kafka, PostgreSQL, Kubernetes, Airflow

Key Achievements: - Built high-performing data team delivering 50+ integrated data sources into unified platform - Reduced data processing time by 80% enabling faster business insights - Enabled data-driven decision-making for C-level executives through automated executive dashboards - Improved system observability reducing incident response time by 60%

Principal Solution Architect / Technical Lead | MISA JSC

Jan 2020 - May 2023

Outline:

Led architecture strategy and technical leadership across multiple product lines. Managed and mentored database experts (DBAs) for company projects.

Key Responsibilities:

- Provided technical leadership across multiple product lines and development teams
- Re-architected E-invoice application to handle 1M invoices/day (10x scale improvement)
- Led architecture and development of comprehensive ERP system serving 100K+ enterprise clients
- Mentored development teams on best practices for high-performance system design
- Authored company-wide guidelines for database architecture and implementation standards
- Conducted technical reviews and provided architecture guidance for critical projects

Technology: C#/.NET Core, Python, SQL Server, PostgreSQL, MongoDB, Kafka, Kubernetes, Redis, Elasticsearch

Key Achievements: - Scaled e-invoicing system 10x supporting national digital transformation initiative - Improved critical HRM report performance from 10s to <1s (10x improvement) - Established technical standards adopted across 40+ applications company-wide - Reduced production incidents by 70% through proactive optimization and monitoring

Project Manager / Tech Lead | MISA JSC

Jan 2018 - Dec 2019

Outline:

Led 50+ member team delivering flagship ERP/CRM platform serving 100K+ enterprise customers and 2,000+ sales staff.

Key Responsibilities:

- Managed cross-functional team of 50+ members (Developers, Business Analysts, Architects, QA Engineers)
- Defined project scope, timelines, and deliverables ensuring successful on-time delivery
- Led technical and business meetings to align requirements and resolve issues
- Conducted sprint planning, retrospectives, and team performance reviews
- Managed stakeholder expectations and communicated project status to executive leadership
- Directed complex data migration of 2M+ records from legacy systems with zero data loss
- Fostered strong relationships with internal and external stakeholders

Technology: C#/.NET Core, MySQL, Kafka, RabbitMQ, Elasticsearch, Kubernetes, Angular

Key Achievements: - Successfully launched flagship CRM ahead of schedule serving 2,000+ sales staff from day one - Delivered project within budget while managing large cross-functional team - Achieved zero data loss during migration of 2M+ customer records - Project became company's most successful product to date - Increased sales team productivity by 40% through automated workflows

Software Developer / Team Lead | FPT Software

Jun 2012 - Jan 2017

Outline:

Led development team building enterprise applications for Japanese clients (65,000+ organizations).

Key Responsibilities:

- Led team of 4 developers to create HRM reports and design database architecture
- Developed mission-critical systems for major Japanese utility companies
- Collaborated with Japanese clients to deliver software specifications and system designs
- Mentored junior developers on coding standards and best practices
- Performed SQL Server performance tuning and query optimization

Technology: C#/.NET Framework, SQL Server, Exchange Server, Windows Forms, WPF

Key Achievements: - Delivered enterprise systems with 99.9% uptime for 65,000+ organizations - Received "Excellent Employee of the Month" award - Successfully completed multiple high-satisfaction projects for Japanese clients

EDUCATION

Hanoi University of Science and Technology | Oct 2007 - May 2012

Major: Applied Mathematics and Informatics

HONORS & RECOGNITION

Editor's Choice - Viblo (January 2023)

Awarded for outstanding technical contributions to the developer community
