Location: Hanoi, Vietnam

PROFESSIONAL SUMMARY

Strategic Engineering Leader with 10+ years of experience driving enterprise-scale software development and data platform architecture (ERP, CRM, CDP). Expert in modernizing legacy architectures into Event-Driven and Microservices models. Proven track record in building Data Lakehouses managing 20TB+ of data and optimizing high-concurrency systems serving millions of users.

TECHNICAL EXPERTISE

Architecture & Design

Microservices, Event-Driven Architecture (EDA), System Design (C4 Model), API Gateway, Multi-tenancy, Master Data Management (MDM)

Data Engineering

Data Lakehouse (Hadoop, Spark, Hudi, Presto), ETL Pipelines for 50+ sources, CDC, ClickHouse

Backend Development

.NET Core/C#, Python, SQL, Java, C++

Databases

SQL Server (Expert in Performance Tuning), PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

DevOps & Observability

Docker, Kubernetes (K8s), Kafka, RabbitMQ, Airflow, Prometheus, Grafana

PROFESSIONAL EXPERIENCE

Engineering Manager (Data Team) | MISA JSC

Jun 2023 - Present

- Designed and implemented a Data Lakehouse architecture (Hadoop, Hudi, Presto) managing over 20TB of raw data
- Leveraged ClickHouse to reduce complex report generation time by 80%
- Architected robust ETL pipelines for automated data ingestion from 50+ disparate sources
- Deployed AI/ML predictive models for churn risk and customer potential ranking for 2M+ enterprise clients
- Led data team to deliver business intelligence solutions for enterprise decision-making

Principal Solution Architect / Database Expert | MISA JSC

Jan 2020 - May 2023

- Re-architected the E-invoice application to handle a scale of 1,000,000 invoices per day
- Successfully improved HRM report performance from 10 seconds to less than 1 second
- Authored company-wide guidelines for database architecture, implementation, and administration
- Provided technical leadership across multiple product lines
- Mentored development teams on best practices for high-performance database design

Project Manager / Tech Lead | MISA JSC

Oct 2018 - Dec 2021

- Managed a flagship ERP platform integrating 40+ applications for 100K+ enterprise customers
- Led a cross-functional team of 50+ members to deliver a scalable CRM supporting 2,000+ sales staff
- Directed the migration of 2M+ records from legacy systems with zero business disruption

- Coordinated with stakeholders to align technical solutions with business objectives
- Delivered multiple high-impact projects on time and within budget

Software Developer | FPT SOFTWARE

Jun 2012 - Jan 2017

- Developed mission-critical systems for major Japanese utility companies (65,000+ organizations)
- Specialized in SQL Server performance tuning and complex Exchange Server integrations
- Collaborated with international teams to deliver enterprise-grade solutions
- Maintained and enhanced existing enterprise applications with high availability requirements

OPEN SOURCE CONTRIBUTIONS

Dapper.Contrib.Bulk

High-performance library for SQL Server Bulk operations in .NET
GitHub: github.com/nghiand1010/Dapper.Contrib.Bulk

Rendezvous Hashing

Implementation of Highest Random Weight (HRW) hashing algorithm for distributed systems
GitHub: github.com/nghiand1010/rendezvous-hashing

EDUCATION

Bachelor in Applied Mathematics & Informatics

Hanoi University of Science and Technology | 2007 - 2012

CERTIFICATIONS

- Machine Learning Expert - 2024
- System Design Expert - 2023
- Next-Gen CTO Program - 2023

HONORS & RECOGNITION

Editor's Choice - Viblo (January 2023)

Awarded for outstanding technical contributions to the developer community

LEADERSHIP & SOFT SKILLS

- **Team Leadership:** Successfully managed cross-functional teams of 50+ members across multiple product lines
- **Strategic Planning:** Proven track record in roadmap planning and execution for enterprise-scale systems
- **Stakeholder Management:** Expert in aligning technical solutions with business objectives for C-level executives
- **Mentorship:** Actively mentoring junior developers and architects in system design and data engineering
- **Problem Solving:** Strong analytical skills with a mathematician's approach to complex technical challenges
- **Communication:** Effective technical communication across engineering, product, and business teams

Building scalable systems with a mathematician's mindset.
